

Financial Statement Analysis & Performance Dashboard

Reliance Industries Limited (NSE: RELIANCE)

5-Year Consolidated Financial Review — FY2022 to FY2026

Prepared as a self-directed equity research / portfolio project
Data sources: Company financial statements (screener.in, stockanalysis.com)
September 2026

1. Executive Summary

Reliance Industries Limited (RIL) is India's largest private-sector conglomerate, with operations spanning oil-to-chemicals (O2C), digital services (Jio Platforms), and retail (Reliance Retail). This report reviews RIL's consolidated financial performance over FY2022–FY2026 (fiscal years ended 31 March), covering the income statement, balance sheet, cash flow statement, and a set of standard profitability, liquidity, leverage and efficiency ratios.

Over the review period, consolidated revenue grew from ₹6,94,673 Cr in FY2022 to ₹10,55,780 Cr in FY2026, a 4-year CAGR of approximately 11.0%, driven largely by the scale-up of Jio and Reliance Retail alongside steady O2C performance. Profit after tax (PAT) rose from ₹67,845 Cr to ₹95,754 Cr over the same period (CAGR ~9.0%), while EBITDA margins have stayed in a relatively narrow 15.6%–18.1% band, indicating a business mix with a stable but moderate blended margin profile. Return on equity has hovered around 9–11%, and the balance sheet remains moderately levered, with debt-to-equity between 0.41x and 0.63x across the period.

Metric	FY2022	FY2026	5-Yr Trend
Revenue (₹ Cr)	6,94,673	10,55,780	CAGR ~11.0%
EBITDA Margin	15.6%	17.0%	+140 bps
PAT (₹ Cr)	67,845	95,754	CAGR ~9.0%
ROE	8.7%	10.6%	+190 bps
Debt / Equity	0.41x	0.45x	Broadly stable

Table 1: Key headline metrics, FY2022 vs FY2026 (consolidated).

2. Income Statement Analysis

The table below summarises RIL's consolidated income statement for FY2022–FY2026. EBITDA is computed as revenue less total operating expenses; EBIT further deducts depreciation and amortisation.

₹ Crore	FY2022	FY2023	FY2024	FY2025	FY2026
Revenue from Operations	6,94,673	8,76,396	8,99,041	9,62,820	10,55,780
Total Operating Expenses	5,86,092	7,34,078	7,36,543	7,97,222	8,76,715
EBITDA	1,08,581	1,42,318	1,62,498	1,65,598	1,79,065
EBITDA Margin	15.6%	16.2%	18.1%	17.2%	17.0%
Depreciation & Amortisation	29,782	40,303	50,832	53,136	57,688
EBIT	78,799	1,02,015	1,11,666	1,12,462	1,21,377
Other Income	19,600	12,020	15,792	17,824	28,846
Finance Costs	14,584	19,571	23,118	24,269	27,061
Profit Before Tax	83,815	94,464	1,04,340	1,06,017	1,23,162
Profit After Tax (PAT)	67,845	74,088	79,020	81,309	95,754
EPS (₹/share)	44.87	49.29	51.45	51.47	59.69

Table 2: Consolidated income statement, FY2022–FY2026. Source: screener.in / RIL annual reports.

Figure 1: Revenue grew steadily each year; PAT growth has been more moderate as depreciation and finance costs scaled with capex.

Profitability margins

EBITDA margin expanded from 15.6% in FY2022 to a peak of 18.1% in FY2024 before easing slightly to 17.0% in FY2026, reflecting a mix shift toward higher-margin digital and retail segments offset by O2C margin cyclicalities. Net profit margin is consistently lower than EBIT margin due to a meaningful finance cost and depreciation base from RIL's large, ongoing capex programme (5G rollout, retail expansion, new energy investments).

Figure 2: EBITDA, EBIT and net profit margins, FY2022–FY2026.

3. Balance Sheet Analysis

RIL's balance sheet has grown steadily as the company continues to invest in digital infrastructure and retail footprint. Total assets increased from ₹14,98,622 Cr in FY2022 to ₹21,77,546 Cr in FY2026. Note the reduction in reserves and equity between FY2022 and FY2023 reflects the demerger of Jio Financial Services in 2023, which distributed shares (and associated net assets) to RIL shareholders and is a one-off structural event rather than an operating decline.

₹ Crore	FY2022	FY2023	FY2024	FY2025	FY2026
Equity Share Capital	6,765	6,766	6,766	13,532	13,532
Reserves & Surplus	7,72,720	7,09,106	7,86,715	8,29,668	8,90,498
Total Shareholders' Equity	7,79,485	7,15,872	7,93,481	8,43,200	9,04,030
Total Borrowings (Debt)	3,19,158	4,51,664	3,50,719	3,74,313	4,02,962
Other Liabilities	3,99,979	4,38,346	6,10,848	7,32,200	8,70,554
Total Assets	14,98,622	16,05,882	17,55,048	19,49,713	21,77,546
memo: Current Assets	3,47,019	4,25,296	4,70,100	4,99,270	5,94,249
memo: Current Liabilities	3,08,662	3,95,743	3,97,367	4,53,737	5,41,254

Table 3: Consolidated balance sheet (summarised), FY2022–FY2026. Source: screener.in, stockanalysis.com.

Total debt increased sharply in FY2023 (to ₹4,51,664 Cr) before being brought down in FY2024, and has since risen gradually alongside the asset base — consistent with a business funding continued capex through a mix of internal accruals and borrowing rather than aggressive deleveraging or re-leveraging.

4. Cash Flow Analysis

Operating cash flow has grown consistently and strongly, nearly doubling from ₹1,10,654 Cr in FY2022 to ₹1,92,113 Cr in FY2026 — a healthier and steadier trend than PAT growth, indicating good underlying cash conversion. Investing outflows remain large and consistent, reflecting sustained capex across O2C, Jio and Retail. Free cash flow (approximated here as operating cash flow plus investing cash flow, since a separate capex line is not disclosed at this level of granularity) turned decisively positive from FY2024 onward.

₹ Crore	FY2022	FY2023	FY2024	FY2025	FY2026
Cash Flow from Operations	1,10,654	1,15,032	1,58,788	1,78,703	1,92,113
Cash Flow from Investing	(1,09,162)	(93,001)	(1,13,581)	(1,37,535)	(1,01,089)
Cash Flow from Financing	17,289	10,455	(16,646)	(31,891)	(51,549)
Net Change in Cash	18,781	32,486	28,561	9,277	39,475
Free Cash Flow (approx.)*	13,646	(16,770)	21,212	41,079	70,023

*FCF approximated as CFO + CFI. Table 4: Consolidated cash flow statement, FY2022–FY2026.

Figure 3: Operating cash flow has grown steadily; free cash flow turned solidly positive from FY2024 onward.

5. Ratio Analysis

Ratio	FY2022	FY2023	FY2024	FY2025	FY2026
Revenue Growth (YoY)	n/a	26.2%	2.6%	7.1%	9.7%
EBITDA Margin	15.6%	16.2%	18.1%	17.2%	17.0%
EBIT Margin	11.3%	11.6%	12.4%	11.7%	11.5%
Net Profit Margin	9.8%	8.5%	8.8%	8.4%	9.1%
Return on Equity (ROE)	8.7%	10.3%	10.0%	9.6%	10.6%
Return on Assets (ROA)	4.5%	4.6%	4.5%	4.2%	4.4%
Current Ratio	1.12x	1.07x	1.18x	1.10x	1.10x
Debt-to-Equity	0.41x	0.63x	0.44x	0.44x	0.45x
Interest Coverage	5.40x	5.21x	4.83x	4.63x	4.49x
Asset Turnover	0.46x	0.55x	0.51x	0.49x	0.48x

Table 5: Key financial ratios, FY2022–FY2026 (ROE/ROA computed on fiscal year-end equity/assets, not averages).

Figure 4: ROE has consistently exceeded ROA, reflecting the leverage effect of RIL's debt-funded asset base.

Leverage & liquidity

The current ratio has stayed in a narrow 1.07x–1.18x band, indicating a fairly tight but stable working-capital position typical of a large integrated conglomerate with efficient receivables and payables management. Debt-to-equity spiked to 0.63x in FY2023 before normalising to the 0.44x–0.45x range in subsequent years. Interest coverage has declined gradually from 5.40x to 4.49x as finance costs have grown faster than EBIT, a trend worth monitoring if capex-driven borrowing continues.

Figure 5: Debt-to-equity and interest coverage, FY2022–FY2026.

6. Key Insights & Conclusion

- Consistent top-line growth: Revenue has grown every year, with a 4-year CAGR of ~11.0%, driven by Jio, Retail and a resilient O2C business.
 - Margin stability with a modest recent dip: EBITDA margin peaked at 18.1% in FY2024 and has eased slightly to 17.0% in FY2026 — worth watching for further compression.
 - Strong and improving cash generation: Operating cash flow has grown faster than PAT, and free cash flow (approximated) turned solidly positive from FY2024, improving self-funding capacity for future capex.
 - Moderate, broadly stable leverage: Debt-to-equity has settled around 0.44x–0.45x after a FY2023 spike; interest coverage has drifted down from 5.4x to 4.5x, a metric to track going forward.
 - Returns below long-run conglomerate benchmarks: ROE (~9–11%) and ROA (~4–5%) are moderate for a company of RIL's scale, reflecting the capital intensity of its telecom and O2C businesses and the drag of large ongoing investment programmes.
 - One-off structural event: The FY2023 dip in reserves/equity reflects the 2023 demerger of Jio Financial Services and should not be read as an operating deterioration.
-
